Head lice is a growing epidemic that affects people of all backgrounds. In recent years, infestations have multiplied worldwide, and head lice has become immune to chemical-based, over-the-counter products and home remedies.

The demand for reliable, efficient, and inviting delousing boutiques is on the rise. **Bug-A-Lugz** will dominate this market with its exclusive green product line and expert care and service. Our business structure enables successful franchising.

Headquartered in the environmentally-conscious San Francisco Bay Area, we have developed a carefully researched and tested method using our line of non-toxic, 100% natural shampoos, household cleaners, and laundry detergents. **Bug-A-Lugz** formulas are safe and highly effective in combatting the strongest strains of head lice, unlike other products that use dangerous chemicals and are still unreliable.

Our advanced salon utilizes our exclusive products in a comfortable and pleasant atmosphere for treatments.

Bug-A-Lugz has the product, knowledge, experience, and integrity for continued and sustained growth. Join a flourishing enterprise and be one of the first to offer a successful delousing solution in your community.
